ABOUT ME

Motivated and detail-oriented Software Engineering undergraduate at the University of Lancashire, UK, currently completing the second year of the degree programme delivered through Universal College Lanka (UCL). Skilled in C++, Python, Flutter, Dart and web development with hands-on experience gained through academic and personal projects. Developed several software and mobile application projects including quiz applications, API-integrated applications and game development projects strengthening both technical and problem-solving abilities. Passionate about software engineering, mobile application development, networking and cybersecurity technologies with a strong interest in learning modern technologies and developing innovative solutions for real-world problems. Eager to further enhance technical skills, expand knowledge in modern software technologies and gain valuable industry experience through internship opportunities in the software engineering field.

ACADEMIC QUALIFICATIONS

BSc(Hons) Software Engineering Degree

2024 - 2027/2028

- Currently pursuing a Software Engineering degree with a focus on programming, problem solving, test driven software development and modern computing technologies.
- Successfully completed up to the second year of the degree programme, gaining knowledge and practical experience in software engineering concepts.

Foundation Programme in Computing (NCC Education UK)

2023 - 2024

- Successfully completed a one-year International foundation programme in computing that is offered by NCC Education UK.
- This programme provided a strong foundation in programming and computing, helping me to progress confidently into the Software Engineering degree programme.

G.C.E. Ordinary Level (O/L) Exam

2022 (2023)

- Successfully completed the G.C.E. Ordinary Level Examination with 1A, 2Bs and 6Cs.

CORE PROJECTS

BeatBuzzer – Music Quiz App (Group Project)

- Developed a mobile music quiz application using Thunkable with score tracking and challenges with an interactive UI.

Payroll Management System

- Developed a C++ payroll management system with file handling and employee salary processing features.

Racing Game Project

- Developed a 3D racing game using C++ and TL-Engine with game physics, collision detection checkpoints and camera systems.

AstroGallery – NASA Space Exploration App

- Developed a cross-platform Flutter application using NASA APIs to display real-time astronomy content and implemented API integration, responsive UI design and dynamic content handling.
-

CORE SKILLS

SOFT SKILLS	TECHNICAL SKILLS
• Project Management • Teamwork • Time Management • Problem Solving • Willingness to Learn • Adaptability • Quick Learning • Critical Thinking • Leadership • Collaboration • Creativity • Decision Making • Communication Skills	• C++ • Python • Flutter & Dart • HTML & CSS • Git & GitHub • SQL Basics • Object-Oriented Programming in C++ • Responsive Web Design • Networking Fundamentals • Virtualization Technologies • Kali Linux Tools (Nmap, Burp Suite, Autopsy) • API Integration • Figma Design

LANGUAGES

- Sinhala: Native
 - English: Professional Working Proficiency
